

HDC 45 NoiseGard™

Products for Industry | Stereo Headphones with NoiseGard™ Active Noise Compensation

General Description

First class stereo headphones with NoiseGard™ active noise compensation of up to approx. 10 dB. The HDC 45 NoiseGard™ headphones are small, light, robust and comfortable to wear. The ear pads can easily be changed, and the headphones can be supplied with any company logo printed on them.

Technical Data

Frequency response	20 – 18,000 Hz
Transducer principle	dynamic, open
Nominal impedance	270 Ω
THD	≤ 0.8 %
Active noise compensation.....	> 10 dB (between 400 – 1,000 Hz)
Operating voltage.....	11 – 16 V DC
Ear coupling	supra-aural
Contact pressure	approx. 1.6 N
Weight (without cable)	approx. 115 g
Connection cable.....	1.2 m, single-sided
Connectors	
HDC 45-26-0	special 3-pin connector, 2.5 mm jack and 3.5 double mono jack, seat powering (ARiNC type C2)
HDC 45-16-0	special 2-pin connector, 2.5 mm jack and 3.5 stereo jack, seat powering (ARiNC type C1)
HDC 451-26-0	3.5 mm double mono jack, battery powering (ARiNC type A2)

Features

- Light
- Compact design
- Robust
- Replaceable ear pads
- Excellent frequency response
- Single-sided cable
- Company logo option

Recommended Accessories

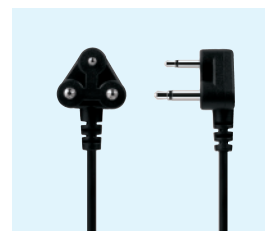

- HZH 60 hygiene pads (100 pairs)

Cat. No. 003553

Product Variants

- HDC 45 NoiseGard™
- HDC 45-26-0
- HDC 45-16-0
- HDC 451 (poly bag)
- HDC 451 (blister pack)
- HDC 451-26-0
